PROFILE

I'm Dani Contreras Rodriguez. Born in Chile but raised in Amsterdam. I create animations with the focus on 2D illustrations, characters and graphics. I love storytelling and bringing illustrations to life through animation.

I can easily work individually on small-scale projects where I do everything on my own from start to finish. However, I also like to be part of a larger whole where I have to work in a team for a large project. I'm always searching for new styles and trends and learning to improve my craft.

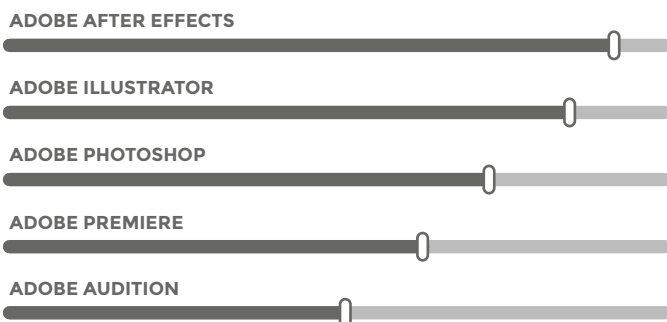

CHARACTERISTICS

Organized, calm, motivated, passionate, open minded, flexible, problem solver, patience.
